

Day 2
Wednesday 7 November

Time	Topic	Detail	Pre-reading, guidelines, exercises	Resource people
08:30-10:30	Current issues in health systems	<p>Current issues in health systems. 15 mins plenary on health systems and overview of important and current debates. Six groups to be formed around the six health system readings. Participants are asked to select one or two of the six readings listed on the resources page and come prepared to contribute to a discussion about that chapter including its relevance to the struggle for health in their country and on how PHM could work more effectively in that area. Topics to include: UHC, fiscal policies, Astana (and PHC), CHWs, brain drain, austerity. GT to help identify facilitators We aim to have the topic discussions finished in the first session and then look towards group reports and general panel discussion in the second session. The purpose of this session is to highlight the range of health system issues we are facing, to point to current directions in policy analysis and to focus on strategies for engagement, in particular, through PHM.</p>	<p>See Health systems readings on resources page</p> <p>Introductory presentation</p>	David
10:30-11:00	Break			
11:00-12:30	Health systems continued	<p>Health systems continued. Topics to include: UHC, fiscal policies, Astana (and PHC), CHWs, brain drain, austerity. We aim to have the topic discussions finished in the first session and then look towards group reports and general panel discussion in the second session. The purpose of this session is to highlight the range of health system issues we are facing, to point to current directions in policy analysis and to focus on strategies for engagement, in particular, through PHM. Asking how PHM might contribute more effectively at local, national, regional and global levels. Putting it all into the wider political economy context.</p>		Sarojini
12:30-1:30	Lunch
